THE WEATHER. We are having warm sunshine in the day and occasionally some showers, which are very pleasant. The nights are cool and agreeable, except on the 24th, when there will be a high wind.

THE CLOTHING TRADE. The domestic little business is as fond of "secondhand" as the European. The garments of the poor, who have nothing to sell, are to be sold at the lowest price. When all these historians are safe in their boxes, we shall be glad to show our customers, that we have made good progress.

THE FURNISHING TRADE. We hope to see the study of philosophy will teach us how to live, but there is no hope that any study will ever teach these gentlemen any lesson so useful to American manners. Hence, we must depend upon our own ingenuity to make up for the want of taste.
